OTHER:

Dear Mr. Van Leuven,

This letter is to act as confirmation that we have received and destroyed by Thermal Oxidation the following materials, generated by Lederle Labs and packaged/transported by Advanced Environmental Technology of Randolph, N.J. (authorized representative of Chemical Control).

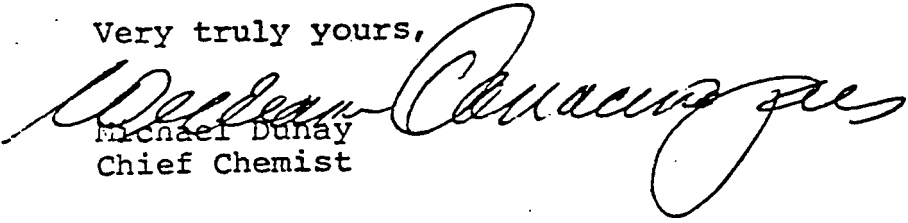

44 - drums of Packaged Lab Chemicals including poisons, corrosives, oxidizers, water reactives, flammables, etc.

3 - 5 gallon pails of lab solvents

Chemical Control's incinerator is approved for destruction of chemical wastes under N.J.D.E.P. Air Pollution Control Permit #CT19841. Our services are in full compliance with all applicable regulations.

Thank you for using our services.

Very truly yours,

Michael Dunay
Chief Chemist
